DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,9 & 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Pollard (US Patent No. 4,477,764). Pollard discloses an energy power generating system comprising: storage batteries (b,b'), an alternator/generator with a internal rectifiers (not shown) for recharging the battery (20) and moreover able to convert from AC to DC power. Pollard further discloses armature connecting a motor (11) to the alternator and shafts type armatures (12, 13) and connected to a pulley (32).

Allowable Subject Matter

Claims 15-19 are allowed over the prior art of record.

Claims 3-8 & 11-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
